PRESSRELEASE

KINYO PULLS OUT OF DRUPA 2021

Kinyo, one of the global leaders in the manufacture of offset printing blankets, will not participate as an exhibitor at DRUPA 2021.

Despite extensive planning for our participation and our ongoing support for DRUPA 2021, the current corona pandemic and the associated restrictions mean that we cannot guarantee a successful trade fair. Even if all levels of hygiene are first class and all health and safety guidelines are well set out, we cannot and will not expose our employees, and of course our customers, to any potential health risk.

As a globally active company, we must also consider the restrictions on international travel and the impact this might have on visitor numbers and the ability of our international colleagues to attend the trade fair.

Therefore, Kinyo will cancel its participation in DRUPA 2021.

Kinyo is well-known for our innovative product range, consistently high quality and our service and support teams who are trained to the highest standard and experienced in all print applications.

Kinyo will now present its innovations in offset printing blankets to the market in a different way:

- We will increasingly rely on a local presence, via direct customer contact and with our authorised specialist dealers.
- Specialist webinars to introduce new products and concepts and - if possible and feasible - road shows are also planned.

Of course, everything will be planned around compliance with the current and local pandemic regulations.

Jens Brandt
Managing Director Europe and Africa
