# KINYO NEWS

## ONLY THE NAME CHANGES - THE PROVEN QUALITY REMAINS!

As part of our ongoing process optimization projects, the roll widths of our well-known and highly successful SB02 coating blanket have been streamlined.

For a clearer transition we have changed the product name to **SB03** to provide a clear path towards these new roll widths. The proven quality and the easy-to-use application remain.

## SB03-COATING BLANKET

- A very consistent stripping layer that provides clean stencil edges.
- Fully compatible with aqueous and UV varnishes and coatings.
- Deep stencil area ensures that unwanted coating transfer and splashing is eliminated.

Our coating Blanket can be ordered now with the following roll widths:

**1065 mm // 1535 mm // 2120 mm**

If you have any questions, please do not hesitate to contact us.

Sincerely  
Your KinYO Team
